

All you could ASK FOR

A HOME THAT IS MODERN YET WARM AND WELCOMING

PARC ARCHITECTS 082 817 8775

Parc Architects was responsible for the initial concept design and design development through to the later construction phases of the home, as well as providing ceiling, lighting and other construction details and documentation throughout the process. The company specialises in high-end luxury residential architecture with the capability to handle any scale of project.

ABOVE: The foundation of your home is the most imperative element, and these owners knew they were in safe and capable hands when contacting AF Fouché Construction to serve as the main contractor for their build. The company is well known for the construction of upmarket homes from the foundation up until the final finishes.

BELOW: Dezin A Door designed, manufactured and supplied all the bespoke cabinetry throughout this spectacular home, aside from the internal doors. These included the cupboard doors and drawers, panels and carcasses as well as the installation of these items. The combination of colours and materials used brought the owner's vision to life in a way that surpassed her expectations.

“As avid entertainers to friends and family, the owners knew from the start that their home had to be conducive to easy entertaining.”

When it comes to a home that has everything you could want or need for an ideal lifestyle, all while being stylish and trendy, this one does that and more. As avid entertainers to friends and family, the owners knew from the start that their home had to be conducive to easy entertaining. For this reason, the home has been designed around an open-floor plan, with

a focus on seamless indoor/outdoor living.

At the same time, as theirs is a growing family, the property has also been created to cater for the adults and the kids, with all the private spaces – comprising four bedrooms, a study and a PJ lounge – located upstairs. The ground floor is where the family gather to enjoy their time in spaces that have been furnished and decorated to encourage relaxation. Comfort and warmth reign >

ABOVE: Oggie European Oak planks were used on the floors throughout this home. To create a seamless and stylish look, the owners opted for the wooden floors in the 190mm-wide X 1 900mm-long size. These Oggie ONA rustic planks were finished with a WOCA Denmark Greymist UV oil to give the floors not only a gorgeous aesthetic but to ensure longevity and durability as well. Oggie Hardwood Flooring has showrooms in Paarden Eiland, Kramerville and Umhlanga Village.

supreme here and the spaces are welcoming as they are steeped in understated luxury. There is also a full-on home theatre room that is guaranteed to turn any movie night into a treat. The fully equipped pool and patio area, with a swim-up pool bar, guarantees that outdoor entertaining will always be a breeze. And while outside, these residents also get to enjoy the gorgeous views on the horizon made possible due to the way the home has been positioned. To further ensure that the views are maximised throughout the property, sliding doors and large expansive windows were included in the design. This concept also enforces the modern and contemporary style that the exterior showcases and complements the architectural design of the home as well. Whether enjoying summer sunsets outside on the patio or sitting by the fireplace on a winter's night, this is a home that's enjoyed by the family and their guests throughout the year. 🏡
